

Biography: Will Wyman

Waste Permits Division

Texas Commission on Environmental Quality (TCEQ)

Current Position

Will Wyman is currently a Program Supervisor in Waste Permits Division. He supervises permit specialists, engineers and Geoscientist in the Industrial and Hazardous Waste Permits Section.

Prior Experience and Education

Will received a Bachelor of Arts degree in Geography from Southwest Texas State University, in San Marcos, Texas. In 1991, he began his professional career as an intern and Environmental Coordinator for the Lower Colorado River Authority in Austin, Texas. In 1995, he moved to the Texas Natural Resource Conservation Commission as a Program Specialist where he managed the Agricultural Waste Pesticide and the Texas Country Cleanup Programs. In 2001, he moved to the Small Business Local Government Assistance Section (SBLGA). In 2005, while still working with SBLGA, he moved to the Austin Regional Office where he continued to aid customers in compliance assistance, while also participating on all agency waste rule teams and training new employees in municipal solid waste and industrial hazardous waste issues.

At the beginning of 2009, Will began supervising staff in Central Texas and South Texas. He continued to manage projects that covered waste issues and petroleum storage tanks, as well as environmental summit staff. In May of 2013, Will moved to the Waste Permits Division.
